## GUARANTEEING DEPOSITORS IN NATIONAL BANKS.

It is an old saying "that necessity is the mother of invention." The present stringency in the money market is causing statesmen to devote much time to the study of finances and if possible devise means to relieve the country. It is known that millions of dollars have been withdrawn from banks that are financially sound and that these millions have been locked up in vaults or buried in out-of-the-way places until confidence is restored. These withdrawals of the deposits and the calling in of loans by banks, which must keep an unusually large amount of money on hand to be prepared for any emergency that may arise, have taken a large amount of money out of circulation and to a considerable extent are responsible for the financial stringency. This has led to the framing of a bill to guarantee depositors in national banks against loss, the text of which is as follows:

Sec. 1 Every national bank existing and doing business at the date of the passage of this act shall, as soon as practical thereafter, report in writing its true financial condition to the secretary of the treasury, and if found by said secretary to be in a solvent condition, the deposits thereafter made in such bank in good faith in due course of business by persons not officers in the bank, or stockholders in the corporation, or doing banking business, shall be paid, and they are hereby guaranteed by the United States, to be paid depositors, or their lawful assigns, or transferees, when drawn by draft or check, and no person shall be allowed to overdraw his account in any manner.

Sec. 2 To indemnify the United States from loss by the guarantee given as made in the first section of this act, an annual tax is hereby levied on all deposits hereafter made in banks described in this act, equal to 1/4 of 1 percent of said deposits, and said tax shall be paid to the secretary of the treasury on the last day of the month of the year on the deposits of that year.

This will prevent runs on national banks, as the government will be responsible to the depositors in the event of the failure of the bank, but depositors must pay for the guarantee.

## STANDARD DOLLARS AT A PREMIUM.

As hitherto stated in the JOURNAL, the hitherto despised standard dollar is in demand in New York and other eastern cities at a premium of from one to two and a half per cent. The New York Press, which has devoted its columns to abuse of the silver men and arguments against the coinage of sixty-cent dollar, contains a display advertisement in the following words:

"Wanted, gold, silver or paper money. We will purchase at a liberal premium, in exchange for our certified checks, payable through the clearing house, gold coin, standard silver dollars, United States notes, certificates and national bank notes, and checks on the assistant treasurer at New York. Zimmerman & Forsyth, bankers, 11 Wall Street."

In the great commercial metropolis of the United States, the home of the goldbugs, bankers advertise that they will pay a liberal premium for standard dollars, the coinage of which has been suspended at the mints for the reason, Secretary Carlisle tells us, that there is no demand for such money. With the whole people, save a few who for sordid reasons are endeavoring to make gold above the standard of value, demanding more money and congress suggesting all sorts of expedients to ease the financial stringency, the secretary of the treasury, with piles of bullion sagging the floors of the treasury, suspends the coinage of silver dollars, which Wall Street bankers, notwithstanding their hatred of such coins, offer to buy at a premium. With such conditions existing, while hundreds of thousands are thrown out of employment, while solvent banks are compelled to suspend, while hundreds of reputable business houses are forced into the hands of receivers, while farmers north, south, east and west cannot get money to move their crops, it is not surprising that people believe that there is a conspiracy among the gold men to increase their own wealth though they ruin the country in doing so.

CONGRESSMAN PRINCE of Colorado in his eloquent speech in the house of representatives, after reading an extract from Carlisle's speech on the Matthews revolution, says the *Silver State*, and of the secretary: "He was then a leader, not a follower; then a peer, not a vassal; then a sender not a bearer of messages."

THE SUPERINTENDENT of the Philadelphia mint has received instructions to push small gold coinage and subsidiary silver coinage as rapidly as possible. No orders have been issued, however, to resume the coinage of standard dollars, though these dollars command a premium in New York.

THE LADIES of Austin have organized a silver league and enlisted for the war. The women of the country should follow the example of these patriotic women and assist by every means in their power to further the cause of free coinage.

It is believed in Washington that the committees of the house of representatives will not be announced before the 1st of September, when the silver question will be disposed of in that body for the time being.

## IOWA REPUBLICANS.

## Their State Convention Largely Attended.

## A YOUTH'S FIENDISH WORK

## Indications Favorable for a Compromise on the Silver Question.

## IOWA REPUBLICAN CONVENTION.

## Largely Attended and the Liberals in the Ascendancy.

DES MOINES, August 16.—The Republican state convention was called to order to-day by the venerable ex-Senator Harlan, who regarded the financial situation as favorable to Republican success. The convention is largely attended and the Liberals are in the ascendancy.

Clyton, Lyons, Ormsby, Conger, Drake, Frank D. Jackson and Lafayette Young are candidates for governor, but it is believed the fight will narrow down to Young and Jackson.

For lieutenant governor George M. Curtis of Clinton, J. A. Smith of Cedar Rapids and H. B. Wyman of Sheldon are mentioned. The selection of lieutenant governor will depend on the head of the ticket. Judge Robinson will be renominated for supreme judge, as will J. W. Luke for railway commissioner. For superintendent of public instruction the names mentioned are innumerable, but Superintendent Jarnagan of Montezuma is in the lead. The platform will probably declare for submission of prohibition, with some kind of relief for cities and towns where saloons exist.

## LODGE FOR REPEAL.

## The Author of the Force Bill Against Silver.

WASHINGTON, August 16.—The striking feature of the financial contest in either house was the debate in the senate. Senator Lodge of Massachusetts delivered his maiden speech in favor of a vote on the unconditional repeal of the silver purchase act on August 22. Lodge met a foe man worthy of his steel in that brilliant young senator from Colorado, Wolcott. In reply to some of the statements made by Lodge the Colorado senator made a vigorous speech, which was the most noticeable and probably the most logical argument against unconditional repeal and in favor of silver delivered up to the present time.

## A Fiendish Youth.

BEAVER FALLS, August 16.—A fiendish act was perpetrated yesterday afternoon near Homewood which resulted in the death of three boys to-day. Frank Graham of Homewood, seventeen years old, knew three other boys were hunting ground hogs about a mile below the village. He got a can of blasting powder, attached fuse, placed it in a little pile of rocks and waited until the young hunters neared the spot. Then he lit the fuse and crept off to a safe distance.

Burgess Reed, sixteen years old, and James Reed, aged fourteen, sons of Smith Reed, a well known farmer, with James Carner, aged seventeen, approached the spot entirely unconscious of danger. The can exploded, all being maimed and burned terribly. Physicians did all they could for the young sufferers, but they died this morning. Graham made his escape and is still at large.

## Rebaking His Collage.

WASHINGTON, August 16.—In the house this morning, Snodgrass (Dem.) of Tennessee made a bitter assault on his colleague, Patterson, on account of the position taken by that gentleman yesterday against free coinage.

Blanchard spoke in favor of free coinage, reviewing the silver legislation of the past.

Grosvenor of Ohio made the really first Republican protest against free coinage. In the course of his remarks he said it was to be regretted that the president, in his message, had not been so void of partisanship as he asked congress to be, that he had seen fit to unjustly proclaim to the people that the present peril of the country grew out of Republican legislation. Republicanism, said Grosvenor, could be relied upon to do their duty. This was their country and they could not afford to put it in a hole.

After a free coinage speech by Hall the house adjourned.

## Determined to be Buried Alive.

BUFFALO, N. Y., August 16.—Mind-reader Andrew J. Seymour of Rockford, Ill., who is at Chautauqua, denied to-day that he had abandoned his plan for being buried alive, notwithstanding the refusal of Mayor Harrison and the mayor of Rockford to issue him a burial permit. Seymour is not discouraged.

"I believe in my theory," said he, "and shall attempt to carry it out within a month." Seymour is yet undetermined whether to be buried, but hopes to get the necessary permit soon. He will again try to get it in Illinois.

## Indications of a Compromise.

WASHINGTON, August 16.—The indications to-night strongly point to a compromise between silver and anti-silver men in congress. Silver men are as rabid as ever in their assertions that unconditional repeal cannot pass the senate, and they claim to have strong hopes that it will fail in the house. Those in favor of repeal still maintain that this act will go through the lower branch by a majority of from ten to thirty-five, while silver men insist that they have just as good a show for victory as the opposition. Some of the Republican senators, notably Washburn of Minnesota, insist to-day that a thorough canvass of this branch of congress has been made and that there will be from forty-seven to fifty votes in favor of unconditional repeal. Several senators heretofore counted in the doubtful column interviewed to-day declare that unconditional repeal will fail in the senate.

## WORK FOR THE GRAND JURY.

## The Absence of Treasurer Boyd Creates a Sensation.

When a JOURNAL reporter called at the courthouse yesterday all hands in and about that institution seemed to be at sixes and sevens, with confusion, discontent and uncertainty on every side. The district attorney had vacated his office and was holding down a chair on the granite steps; the sheriff and his deputy seemed nervous, restless and uneasy; the clerk nervously promanaging the banks of the ditch in the courthouse yard, as if contemplating suicide, while the anxious, disconsolate and woe-begone countenance of Recorder Williams showed plainly that something unusual had happened. The cause of all the difficulty was soon traced to Dan Boyd.

No one who knows him would have suspected him of such an act, but, nevertheless it is true. Confidence in his faithfulness and devotion to duty was never before shaken. It was the first time in sixteen years, week days or Sundays, that Dan Boyd was not found at his post of duty. Early yesterday morning he went to Steamboat picnic party and went to Steamboat picnic party, and was gone fully eight long hours. During all these years Dan has withstood the temptations of state fairs, circuses, prize fights, political conventions and the Salvation army, to be captured at last by a Methodist picnic.

## Telegraphic Notes.

A boat with an excursion party aboard was capsized in the river Shannon, Ireland, and eleven persons drowned.

A mob raided Chinatown at Tulare, Cal., and marched about thirty Chinamen to the depot and sent them north on the cars.

It is rumored at Washington that Congressman Cockran had flopped on the silver question and will advocate bimetalism.

A report that religious riots between the Mohammedans and Hindus have been renewed and that Bombay is under mob rule, is discredited in London.

In the senate Cockrell's bill authorizing the secretary of the treasury to redeem bonds with new legal tender notes was opposed by Sherman. Cockrell ridiculed the idea of letting the national banks increase circulation while a proposition to increase the greenback circulation was opposed by the senator from Ohio, the friend and supporter of national banks and a great gold monometalist.

The debate on the silver question was resumed in the house yesterday. Bryan of Nebraska (silver Democrat) attacked the president's message in vigorous terms. The recommendations of the president meant the burial of silver with no promise of its resurrection. They were arguments for the single gold standard, and they led to a gold monometalism over whose door was written "Abandon all hope, all ye who enter here."

## For Scrofula

"After suffering for about twenty-five years from scrofulous sores on the legs and arms, trying various medical courses without benefit, I began to use Ayer's Sarsaparilla, and a wonderful cure was the result. Fire bottles sufficed to restore me to health."—Bonifacio Lopez, 327 E. Commerce st., San Antonio, Texas.

## Catarrh

"My daughter was afflicted for nearly a year with catarrh. The physicians being unable to help her, my pastor recommended Ayer's Sarsaparilla. I followed his advice. Three months of regular treatment with Ayer's Sarsaparilla and Ayer's Pills completely restored my daughter's health."—Mrs. Louise Riehl, Little Canada, Ware, Mass.

## Rheumatism

"For several years, I was troubled with inflammatory rheumatism, being so bad at times as to be entirely helpless. For the last two years, whenever I felt the effects of the disease, I began to take Ayer's Sarsaparilla, and have not had a spell for a long time."—E. T. Hansbrough, Elk Run, Va.

## AYER'S Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5. Cures others, will cure you.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Bichloride Institute.

The cures performed in Reno by the Western Bichloride Institute are rapidly silencing all opposition to the institute and its method of treating those addicted to the liquor and kindred habits. Nearly every week one or more patients are being turned out cured—new men in body, in appetite, in will power. Many of them have been lifelong drinkers and are well known in this community, and to-day they are again free men with absolutely no desire for liquor in any form. The institute makes no flourish of triumph but goes quietly on in its mission of destroying what is known as the alcohol disease.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catwaba, O., had five large fever sores on his leg and doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at S. J. Hodgkinson's drug store.

Ventilation.

Not the politician's sort, but the fresh air you need. Health and comfort often suffer from this kind of ventilation. Never sleep in a poorly ventilated room. You will wake up unfreshed, out of sorts, and bilious. Perhaps you can't improve the ventilation, but you can take Simmons Liver Regulator for that torpid liver, to keep it active against the ill effects of a close atmosphere which causes that languid feeling.

# A. O. U. W.

The Grand Lodge of Nevada Assembles. The grand lodge of the A. O. U. W. of Nevada met in Masonic hall yesterday and is fairly well attended. The order is fraternal and benevolent and has a membership of over 250,000 in the United States. It pays \$2,000 in cash to the beneficiary of every member immediately upon the proof of death being furnished the proper officers. It was introduced in Nevada about sixteen years ago, and the then territories of Idaho, Montana and Utah were attached to the Nevada jurisdiction. A few years ago Montana, having the requisite membership of 2,000, became a separate jurisdiction and in the last year Utah and Idaho did likewise, leaving Nevada alone, and the grand lodge now meets in this state for the first time in many years.

## DEATH OF CAPTAIN BRAGG.

He Drops Lifeless at the Coffin of His Grandchild.

The people of this community were shocked beyond measure yesterday afternoon at the announcement of the sudden and unexpected death of Capt. C. A. Bragg, which occurred at his residence on West street a few minutes before 4 o'clock. During the day the captain had assisted in arranging for the funeral of his grandchild, little Hazel Bacon, who died at his residence the night before, and had alighted from his carriage and entered the house but a few moments before the hour named, and was standing beside the coffin when he dropped to the floor and died without a struggle. In a moment the spirit of the veteran left its earthly tenement to join that of its beloved granddaughter in the haven of bliss—"that undiscovered realm from whose bourne no traveler returns." The circumstances surrounding the death are too sad for utterance. The little granddaughter dying of diphtheria, many of the neighbors, friends and even relatives who had children liable to contract the dread disease, could not be present to console the grief stricken family.

Captain Bragg was born at China, Maine, on the 31st day of August, 1819, and moved with his family to Nevada in territorial days, locating in Carson city.

He leaves surviving him his wife, Mrs. Maria Bragg, aged 73 years, one son, Allen C. Bragg, of the Gazette, and four daughters, Mrs. J. E. Dealy, Mrs. B. F. Bacon, Mrs. R. L. Fulton and Mrs. F. R. Jenvey, all of whom are now in Reno.

The remains will probably be buried under the auspices of the Masonic fraternity of which the deceased was a zealous and lifelong member. The date of the funeral will be announced in due time.

### THE LADIES FOR SILVER.

Resolutions Adopted by the Woman's Silver League of Austin.

To the Honorable Senators and Members of the House of Representatives.

WHEREAS, We the members of the Woman's Silver League of Austin, Lander County, Nevada, fully realizing that the signs of the times demand our ablest thoughts and efforts, not alone in industrial and educational, but also in the financial world of today; consequently, we emphatically declare ourselves in favor of the restoration of silver to that standard which was for so many years accepted as the settled policy of the world. We firmly believe that the present depression in business, and in all industries is due to the demonetization of silver in 1873. By that covert act, the miner is deprived of the just reward for his labor; his inability to purchase the products of the manufacturer, has caused a depression in trade, which largely affects the self supporting women in the silver producing states; hence we deem it the duty of the women of these states to co-operate with all other Woman's Leagues who are seeking to wrest themselves and future generations from the remorseless grasp of the political, and moneyed manipulators, who continually and persistently violate those constitutional principles—freedom and equality—which have made us the most practical, and the most progressive people in the world's history; therefore, be it

Resolved, That this League unanimously declare ourselves in favor of the free coinage of silver at the ratio of 16 to 1, and that we condemn the action of the government in adopting and following the financial policy of England—a government run in the interests of nobles, bankers and capitalists for their own class exclusively, while ours is a government, "of the people, by the people, and for the people."

Resolved, That this League favor the use of silver, and that we insist on its being paid to us in all business transactions, thus giving practical evidence, that as Americans we have confidence in the products of our mines, thereby throwing the lie in the face of the foreign financiers, who claim that, while we howl silver we will not use it.

Resolved, That this League considers the action of President Cleveland on the silver question, to be in direct contradiction of those sacred principles, which has placed him in the highest office in the gift of the people in these United States.

Resolved, That copies of the preamble and resolutions, now adopted, with a letter calling attention to the same, be sent to our representatives in congress, also to Mr. Cleveland, Mrs. Potter Palmer, the Woman's Industrial League of America, and to the leading papers on the Pacific coast.

All of which is respectfully submitted.

### Reno Mill and Lumber Company.

The Reno Mill and Company is a home institution. Its officers and stockholders are residents of the county. It employs several persons and its officers are gentlemen and accommodating. It deals in all kinds of lumber, and makes doors, windows and ornamental wood work to order. At the company's store can be found all kinds of builders hardware, paints, oils, etc., which are sold at uniformly low prices, and it deserves the patronage of the public and receives a large share of it.

It is believed at Washington that there is a greater probability of passing a free coinage bill than of repealing the Sherman act unconditionally.

### 27 Per Cent. Stronger.

The amusing advertisement of a rival Baking Powder, claiming that "it is 27 per cent. stronger than any other," must refer to its smell (as it is a well known ammonia powder).

## Dr. Price's Cream Baking Powder

Is a pure cream of tartar powder. brought to the highest degree of strength and perfection.

Truly the ideal Baking Powder.

Its superiority over every other can be clearly shown by any fairly conducted competitive test, whether made in the laboratory or kitchen.

# Now Try This.

It will cost you nothing and will surely do you good, if you have a cough, cold, or any trouble with throat, chest or lungs. The Bellevue hotel at Lake Tahoe, was burned to the ground between 12 and 1 o'clock Tuesday morning. The property was owned by Ralph Colwell, who purchased it from Wells Fargo. The fire started in the kitchen. Loss \$10,000.—Carson Appeal.

# HOW LAKE TAHOE WAS FORMED.

The Result of Volcanic Uplheaval in an Age Long Gone By.

Major J. W. Powell, director of the United States geological survey, thus describes the origin of Lake Tahoe: "In geographical times not long ago, as speaks the scientist, but very long ago, as peaks the chronicler of human follies, there was a deep valley on the eastern slope of the Sierra Nevada at the headwaters of the Truckee river.

About this valley towered granite mountains. But earthquakes came rents were opened in the rocks, and from the fissures poured monstrous streams of lava. One of these fissures crossed the lower end of the valley, and through it poured floods of molten rocks. Stream after stream issued, to cool in solid sheets and blocks, until a wall was built across the valley two or three thousand feet in height, and above it was a deep basin five or six hundred square miles in area. The storms that fell on the granite and volcanic mountains rolled in rivers to fill the basin and Lake Tahoe was created. When filled at last its waters overflowed the rim of lava, and the Truckee now springs from the Tahoe fountain. Its deep waters are dark with profundity, like the clouds of a stormy sky, but about its shores a few shallow bays are found and emerald waters, like festoons of beauty, encircle the deeper and more somber lake. Back from the waters forest-clad slopes rise toward the heavens, and above are seen naked crags and domes of granite.

# "German Syrup"

We have selected two or three lines from letters freshly received from parents who have given German Syrup to their children in the emergencies of Croup. You will credit these, because they come from good, substantial people, happy in finding what so many families lack—a medicine containing no evil drug, which mother can administer with confidence to the little ones in their most critical hours, safe and sure that it will carry them through.

Ed. L. Wier, 1717, of Mrs. Jas. W. Kirk, Alma, Neb. I gave it to my daughter, who had Croup, and never saw any more of it. I am a physician, and I can testify to its value.

Fully one-half of our customers are mothers who use Boschee's German Syrup among their children. A medicine to be successful with the little folks must be a treatment for the sudden and terrible foes of childhood, whooping cough, croup, diphtheria and the dangerous inflammations of delicate throats and lungs.

The Triumph of "Making Up."  
"No one," he said musingly as he gazed at her in fond admiration, "ever had such a profile as yours. It is absolutely classic."  
She gave him a quick, scrutinizing glance and asked, "Do you like it, John?"  
He nodded assent.

"And that cascade of a month?" he continued. "I have never seen its equal. And those dimples too! See how they play hide and seek. The imprint of angel's kisses, I am sure!"  
A demure look stole across her face, but she did not speak.

"And the droop of your eyes, dear," he went on. "No wonder that half the men in town are at your feet. Was there ever such a face as yours?"  
"I am glad you like the tout ensemble," she answered. "It has been the aim of my life to be considered beautiful. Tell me, John, if I have succeeded?"

"You are a masterpiece," he answered enthusiastically. "But tell me what you mean? The object of your life to be beautiful? I do not understand."  
"But you will," she answered sweetly. "A face of triumph was in her eye, for she had not detected the work of nature. 'I must tell you the truth,' she said after a pause.

"That classic profile was a Roman—six months ago. And this mouth! You should have seen it, John, stretched half way across my face. But I had it altered. And these dimples—I am glad you admire them. Well, they cost me just \$50 apiece. Even the droop of the eyelid was acquired. The designs were all my own."

"I am so glad to have pleased you," and the maiden smiled as she thought of the surprise she had in store for him when he ventured to admire openly the shell-like ear, the contour of the face, the finely penciled brows and the cleverly chiseled throat.—New York Herald.

"Well," said Battista, holding out his hands.—Illustrazione Popolare.

# BALD HEADS!

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

## Skookum Root Hair Grower

is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither minerals nor oils. It is not a dye, but a delicately scented and refreshing tonic. By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads.

Keep the scalp clean, healthy, and free from irritating eruptions, by the use of Skookum Root Soap. It destroys parasitic insects, which feed on and destroy the hair.  
If your druggist cannot supply you send direct to us and we will forward prepaid, on receipt of price. Grower, \$1.00 per bottle; 6 for \$5.00. Soap, 50c per box; 4 for \$2.00.

## The Perfect Place to Dwell In.

We had always been hunting for it. We had always felt sure that somewhere, some day, we should find the perfect place which was to combine the charms of the middle ages with the comforts of the nineteenth century—the Albert Durrer town which could be reached in a railway train, with medieval streets through which the dinner bell would make a pleasant sound, where there would be plenty of picturesque dirt in other people's houses, plenty of fresh water and clean rooms in our own hotel. Perhaps this is a bourgeois idea. But then that is our affair.

Eight years of wandering had brought us no closer to our undiscovered country, when, last summer, as we were traveling in the mountains of—but not why should we tell the name? Why break the serenity of its hilly streets with the rush of personally conducted parties or of casual land riders? Why turn it into another Barbizon or La Guerres, another Chester or Nuremberg? Besides, we have exploited so many places in our day; we have, in our recklessness, presented the painter, the illustrator, the magazine writer with more motives than they can exhaust in a generation; we have, by our enterprise, developed the cycling trade to an incalculable extent, and by our praise made the fortune of half the hotel keepers in Provence. And the result for us? Not a cycle manufacturer would give us a machine if we asked for it, not a land lord would throw us a crust were we starving, not an art student would find a spare moment to thank us. No: the name of the most picturesque place in the world we shall keep to ourselves. It is found in a deliberately kept court of the Cedronians or Stanley.—Mr. and Mrs. Pennell in C. G. G.

## IT IS NOT what we say but what

Hood's Sarsaparilla does that tells the story of its merit. When in need of medicine remember **HOOD'S CURES**

The Value of a Little Thing.  
In a little volume of letters by Henry Irving, just published, is a story which illustrates the actor's motto, "While trifles make perfection perfection is no trifle." "This letter was composed on me when I was a very young man," he says. "My dear friend, the actress, Charlotte Cushman, I remember that when she played 'Regina' I was cast for Henry Portman. It was my duty to give Meg Merrilies a piece of money, and I did it after the traditional fashion of handing her a large purse full of coin of the realm, in the shape of broken crockery, which was generally used in financial transactions on the stage. But after the play, Miss Cushman said to me: 'Instead of giving me that purse, don't you think it would have been much more natural if you had taken a number of coins from your pocket and given me the smallest? That is the way we give alms to a beggar, and it would have added to the realism of the scene. I have never forgotten that lesson.'"

Why Delaware's Boundary is Circular.  
The northern boundary line of Delaware is circular, because the charter given to Penn states that Pennsylvania was to be "bounded on the east by the Delaware river, 12 miles distant north of New Castle town until the third and fortieth degree of north latitude," and that the southern boundary was to be "a circle drawn at 12 miles distant from the town of New Castle northward and westward until the fortieth degree of north latitude and then by a straight line westward." This makes a circular boundary for northern Delaware unavoidable, and the fact above set forth explains a geographical curiosity that has puzzled many students.—St. Louis Republic.

A Word For Farmers.  
The great drawback to many farms to the highest success with cows is the want of good pasture. Many pastures are stocked with early grasses which give a fair amount of feed early in the season, but after the last of July begin to fail, and through the remainder of the season afford but scanty feed. There is, but one way for the farmer to bridge this chasm of poor pasturage, by adopting a partial soiling system—that is, to get near the full benefit of his dairy.—Lewiston Journal.

Mutual Recrimination.  
Corn—I hear you keep bad company, Jack (cheerily)—Tell me who said it, and I'll shoot 'em! I'd rather be slandered myself than to have one talk about your being bad, darling!—Exchange.

The most stubborn skin and scalp diseases, the worst forms of scrofula, all blood-taints of every name and nature, are utterly rooted out by Dr. Pierce's Golden Medical Discovery. For every disease caused by a torpid liver or impure blood, it is the only remedy so certain and effective that it can be guaranteed. If it fails to benefit or cure, you have your money back.

Eczema, Tetter, Salt Rheum, Erysipelas, Boils, Carbuncles, Enlarged Glands, Tumors and swellings, and every kindred ailment, are completely and permanently cured by it.
